MR – MATERIALS & RESOURCES

MR 2.1 - FSC Certified Tropical Wood

USGBC Required Submittals

Written notice to wood suppliers and vendors; AND Information from suppliers and vendors on the origin of wood products as well as the Signed Accountability Form

No proof that the notice was sent out to wood suppliers and no information on the country of origin for wood products = no certification for the project.

OPTION 1:

Notice to Vendors & Contractors: You may provide products that contain tropical wood only if they are specified by the architect AND certified according to the guidelines of the Forest Stewardship Council (FSC). Please provide the country of manufacture of each wood product you expect to supply to us.

OPTION 2:

Notice to Vendors & Contractors: You may provide products that contain tropical wood only if they are specified by the architect AND certified according to the guidelines of the Forest Stewardship Council (FSC). Please provide the country of manufacture of each wood product you expect to supply to us. Also please provide a list of FSC certified products you can supply.

NOTE:

The easiest way to implement this credit is by email. As the green rater for your project, we would accept a record of you sending a notice by email as well as the supplier or vendor replying with the country of origin of the product they expect to supply.
